Stainer's "Crucifixion."

On Wednesday evening at eight o'clock, in St. Andrew's Cathedral, the augmented choir of the cathedral will give Sir John Stainer's sacred cantata, "The Crucifixion."

This classic work has been a favorite with church choirs ever since it was first composed and published, and for the past few years it has been given regularly at St. Andrew's Cathedral each Holy Week.

The cantata follows the usual lines of such works, consisting of recitatives, arias and choruses, interspersed with chorales in which the congregation is expected to join. The solos are written for tenor and baritone voices, and they will be taken by Messrs. Arthur Wall and Reynolds McGrew.

The singers will be as usual, be vested, and the whole setting is at once dignified and impressive. Reginald Carter, the cathedral organist, has had the training of the choir in hand and will preside at the organ. To lovers of music this rendering of "The Crucifixion" will afford an opportunity of hearing the splendid qualities and tonal resources of the new organ which has recently been installed in the cathedral. In connection with this instrument a recent visitor to Honolulu, himself an organist of some repute, and who was given an opportunity of playing on the organ, described it as a magnificent instrument, worthy of any church in any country. He says further:

"The tonal qualities of the individual stops are excellent, and the combination of stops on all manuals, when coupled, gives all that the heart of an organist could desire, namely, a good tone and plenty of it, good quality, good balance and good foundation."

At the close of the cantata an offering will be taken up towards reducing the debt on the organ.

SLIDING MOTOR BOATS FOR CONGO TRAFFIC

(Associated Press Correspondence.)

ANTWERP, March 20.—The Belgian government is sending three so-called sliding motor-boats to the Congo for river traffic. These boats are fifty-seven feet long and have a draught of only 27½ inches. They are driven by motors of 300 horse power and have an ordinary speed of twenty-three miles an hour. The boats can each carry a load of eight tons and accommodate eight passengers in an air cabin suited to the tropics. The accommodations are much like those of a Pullman car.

The boat service for freight, mail and passengers will be started on June 4, from Leopoldville to Stanley Falls and upon some other river routes.

EARTHQUAKE IS FELT IN VALLEY ISLAND

On Sunday night last at seven minutes past eight o'clock a severe shock of earthquake was felt in Wailuku. The tremor appeared to come from the north and traveled toward the south. It lasted for about six seconds. Two shocks were felt at an interval of about two seconds, says the Maui News.

The earthquake was the most severe felt on Maui for a long time, and there were many conjectures as to where the trouble originated. Some people thought that either Kilauea or Mauna Loa had broken out afresh. However, dispatches from Washington show that the seismograph recorded a severe shock there.

It is now surmised that there has been a big eruption in some isolated place and that, later on, news will come of the outbreak. People in Hawaii do not feel nervous as they know Kilauea is a safety valve.

CHILD IS KILLED BY FRACIOUS HORSE

On Tuesday morning last a little Japanese girl was killed by being kicked by a horse. The child, who resides at Hauku, was returning from school when it is alleged that a Chinese on horseback came riding down the road near the Hauku Fruit & Packing Company cannery, says the Maui News.

The horse is said to have reared up and kicked the child on the side of the head with his hind feet.

The unfortunate child was picked up and hurried to the hospital where it was found that she was fatally injured. She died on Wednesday morning.

Two other children were with the one who was killed and they say that they had a narrow escape when the horse began to kick. Deputy Sheriff Morton is looking into the affair and will report to Sheriff Crowl.

TO GIVE CONCERT FOR GOOD CAUSE

Mrs. Ingalls to Do Her Part in Benefit to the King's Daughters' Home.

Until about four years ago there was in Honolulu no haven for friendless and lonely old persons who had passed their day of usefulness. At that time the distress of two such old ladies inspired the King's Daughters with the determination to meet this need, so they rented and furnished the house in Makiki street now the King's Daughters' Home, and installed these two dear old ladies, with a matron to care for them. Later more women and some men were joined to the little family, the house was enlarged to meet the increasing demands for more accommodations, assistants were engaged, and the work grew steadily, until now several small cottages have been added to the establishment. Yet with these added facilities the Old Folks' Home is taxed to capacity, and there are many worthy and needy on the waiting list.

The aim has ever been to give these persons, many of them gentlefolks who have in the past served the world well in honorable and responsible positions, the comforts and care which one would bestow on an enfeebled relative or friend. No efforts are spared in removing all traces of the institution from this home, where each person is given a pleasant private room in which to spend declining years among treasured possessions. In cases where such special attention is required, trained attendants are furnished, there being in the home now three such cases who are attended night and day. Great care is also extended on the meals, these being of the highest grade in point of nutrition, attractiveness and delicacy in service. In no respect throughout this entire delightful establishment is there a lack of the same scrupulous attention to comfort and cheer which is found in any home of refinement.

Through the kindness and generosity of interested friends Christmas, New Year's Day and Thanksgiving are fittingly and joyously celebrated at the Home, and the birthday of each inmate is made by the matron the happy occasion for some special attention.

Inasmuch as the community at large is responsible for the maintenance of this refuge, the reward will be shared by all. It is essential that every individual in the city do his full share, according to the Lord has prospered him, towards keeping up this splendid work. Visitors are most cordially requested to drop in at all times.

Just as soon as conditions warrant the King's Daughters will erect a handsome new building, either on their choice piece of Kaimuki property or elsewhere, as seems best. For this purpose there is laid away a neat little sum to which these loyal workers hope to add as the generosity of their friends permits. The urgent need just at present is for funds to meet the running expenses of the present establishment, and for this good cause Mrs. Ingalls will give a concert in the Opera House next week.

Army Autos Will Carry Flags Showing Rank of Officials

Identification of Service Machines Ordered by the War Department.

Motor cars used officially by United States Army commanders will hereafter be known by the flags they carry. The new flags have been recently described in war department orders and will doubtless become familiar sights in Honolulu.

For Major General William H. Carter, commander of the Hawaiian Department, the flag is of two stars of white six and three-quarters inches from point to point, resting upon two points on a field of red bunting.

For Brigadier General Clarence R. Edwards, commander of the First Hawaiian Brigade, a similar flag with one star of the same dimensions placed in the center of the flag.

For Colonel William C. Rafferty, artillery district commander, the flag is of red bunting bearing two crossed cannons with a medallion at the intersection containing a projectile, all of yellow, sixteen and one-half inches long, placed in the center of the flag.

For chief umpires at the maneuvers, the flag of white, with two parallel stripes three inches wide crossed diagonally from corner to corner.

All of the motor car flags will be rectangular in shape, measuring two feet two inches by and one foot six inches hoist, to be attached to suitable staffs and to be flown from the radiator.

PRAYER IS ANSWERED AFTER FIFTEEN YEARS

MOUNT VERNON, Ohio, March 22.—Miss Clara Kirkpatrick, thirty years old, whose legs have been paralyzed for fifteen years, last week walked unaided to a neighbor's home.

"Fifteen years ago I was taken ill with spinal trouble," Miss Kirkpatrick explained. "Doctors gave up my case. Several weeks ago mother and I spent a day in prayer. We believed our supplications would be answered. 'Abhor that which is evil and cleave to that which is good,' came to me."

"Suddenly, as if some one was lifting me, I arose from my bed and walked. And I sang—for the first time in several years."

RUSSIA PLANS TO STRIKE TURKEY

Arrest of Pretended Assassin Merely Preliminary to Bloodshed Is Belief.

PARIS, March 22.—Your correspondent is informed by persons in the closest touch with the plans of the imperial inner council that the Czar has renewed his command for breaking up the Russian revolutionary organizations in foreign countries.

The Czar's object is to divert the world's attention from a secret scheme to prepare a war for a revolution in Armenia next autumn, which will be the greatest uprising that this distracted province has ever known, and which will result in the Russian territorial aggrandizement along the eastern border of the Black Sea. The immediate outcome of the imperial orders to the secret police will be another series of sinister outrages against the liberty of Russians now being plotted in St. Petersburg.

Campaign Begins

The campaign began this week when a man, who the police call Pavloff, was arrested in Serbia on the allegation that he had received instructions to assassinate the Czar. The unfortunate prisoner's real name is Alexis Vinogradoff Bissel. He is not an anarchist, but simply a socialist whom the police are desirous of getting back to Russia.

Following Bissel's arrest the Serbian government telegraphed to its minister here asking him to trace the existence of Pavloff in Paris, but although the Czar has been very active he has found nothing because Pavloff really is Bissel. The Russian police immediately assured the Serbian authorities that they were perfectly well aware of the man's identity, because they have shadowed him ever since he came to Paris, as well as since he left here two weeks ago.

Charge Unfounded

The Russian revolutionists with whom I have discussed the case aver that the charge that Bissel was designated by anarchists to kill the Czar is absolutely unfounded. He was arrested in Moscow in 1906 for printing pamphlets against the Czar, but after a few weeks' imprisonment he escaped by killing a policeman.

He was re-arrested and sentenced to four years at hard labor in Siberia. After serving three years he again escaped and came to Paris, where, for the last two years, he has gained a living as an electrician, keeping entirely aloof from Russian political affairs.

In Siberia he married a woman who had also been imprisoned for her Socialistic activity. These facts received confirmation from Vladimir Bourtzeff, the famous revolutionary leader, who, in discussing the case with me, said:

"Bissel's arrest is a shameful international outrage. If a written declaration against the Czar exists Russian spies slipped the paper in Bissel's pocket at the time of his arrest. He is incapable of a deliberate assassination. He is 33 years old and of good family, his father being a retired officer of the Russian army."

The Ligue des Droits de l'Homme (the League of the Rights of Men), is taking up this case. Jaures and other French Socialists are joining the Russian Socialists in every effort to effect Bissel's release.

May Aid Armenians

"Only a few people who are acquainted with the Czar's anti-Turkish plans fear that this species of 'diversion' will be likely to continue. Russia's recent warlike preparations are not directed against Germany. The Armenians have been plotting a new rebellion ever since the first Balkan war became imminent. But, acting under the advice of the Czar's government, they have waited. Russia found it impossible to take a hand in the Balkan war because of Austria's hostility. But now that the Balkan question is temporarily settled, she regards the present time as propitious for aiding the Armenians and getting a territorial reward."

Divorce Court Notes

Two divorces were granted yesterday by Judge William L. Whitney, as follows: Jose da Silva from Antonia da Silva, desertion, decree effective April 15; K. Morioka from Ura Morioka, desertion, effective April 15.

The divorce suit which was instituted recently by Mrs. Nellie E. Jaeger against Henry A. Jaeger, on the ground of intemperance, was yesterday discontinued by E. C. Peters, attorney for the libellant. The Jaegers were married in Honolulu on January 16, 1903, and have one daughter, Marion, born March 13, 1914.

From information given out yesterday it was learned that the divorce papers in the case of Police Judge James M. Monarrat against Mrs. Carrie C. Monarrat have been forwarded to Japan, where Mrs. Monarrat is now supposed to be residing.

REPUBLICANS RATIFY NEW RULES

R. W. Breckons Immediately Gives Notice That He Will Ask for Amendment of Proxy Clause and Announces That Split With Progressives Seems Hopeless, Though Not Serious.

The Republican Territorial Central Committee at their regular meeting last night adopted a resolution presented by Chairman R. W. Breckons ratifying the Rules promulgated by the Territorial convention. The Rules were ordered printed in English and Hawaiian for distribution to officers and members of the precinct clubs.

Would Amend Proxy Rule

Mr. Breckons gave notice of a resolution which he will present at the next regular meeting of the committee to amend Section 11 of Article 5 of the new Rules, so that proxies may be held by members of the Territorial Central Committee and delegates to the last preceding territorial convention.

A letter was read from Chairman Charles D. Hillis, of the National Committee, replying to an inquiry addressed to him by George G. Guild in regard to Hawaii's representation at the National Convention in 1916. It follows:

Hillis to Support Hawaii

"I have your letter of February 28, in reference to the action of the Republican national committee in the matter of the re-apportionment of delegates to national conventions."

"I note your comment on that portion of the resolution recently adopted which, if not modified, would result in reducing Hawaii's representation in such conventions."
